

Implementation

TASK 3

TASK 3:

Perform Community Development Study

The New Orleans Partnership will facilitate a comprehensive study of New Orleans' business development and housing problems and provide a systematic delineation of solutions. This will involve a careful diagnosis of the New Orleans economy including, identifying existing bottlenecks and impediments to economic development, systematically delineating solutions and developing a community development strategy for the New Orleans area. For this study, the New Orleans Partnership will tap the expertise of a premier consulting firm and economic development specialists. These experts will, among other things, review and evaluate all existing studies and economic development efforts in New Orleans and provide a strategic implementation plan.

“The Boston Consulting Group strongly supports this noble and necessary initiative, and looks forward to assisting in the development of a well-thought-out and workable implementation plan.”

JAMES H. LOWRY
Vice President, The Boston Consulting Group, Inc.
